WASHINGTON VIEW THAT BRYAN MAKES TAFT INEVITABLE

SINGLENESS OF THE ISSUES

(Staff Correspondence.)

Washington, D. C., Feb. 12.—Bryan has made the nomination of Taft for president by the Republicans inevitable. Owing to his endorsement of the Roosevelt administration in all its essentials, Bryan has given the emphasis of his hold on the people, to a continuance of the president's policies. He thus has brought the dominating sentiment in the Democratic party into harmony with the dominating sentiment in the Republican party, and these combined will demand a candidate who reflects the president in the highest degree.

If Bryan best represents the dominating sentiment of the people he will be elected. He has done and is doing everything to prove this fact to the people. So that the only way the Republican party can insure success at the polls in November will be to nominate a candidate who reflects the president better than Bryan. It is obvious that Fairbanks does not, nor Cannon, nor Knox, nor Foraker, and while LaFollette and Hughes stand in a general way for the policies of the administration, when compared with Bryan's original declarations and his outspoken approval of Roosevelt's principles, they leave a little to be desired in the Republican candidate. Taft by experience and profession, and by the president's own declaration.

The accident also caused a wheel on the machinery to burst, doing considerable damage in the mill. Vonn was a partner in the firm of Evans, Knowlton & Co., of Harro, Tenn. He was here to buy lumber.

WILL REPRESENT METHODISTS AT BIG CONFERENCE

The Rev. G. T. Sullivan, pastor of the Broadway Methodist church and the Rev. J. W. Blackard, presiding elder of the district, have been appointed by the Board of Missions of the M. E. Church, South, located at Nashville, Tenn., delegates to the Interdenominational and International Missionary convention which will be held at Pittsburgh, Pa., on March 10-12, 1908. This convention is under the auspices of the Young People's Missionary Movement of the United States and Canada, and is a notable gathering of world-wide importance. The program is a brilliant one and will include speakers of international reputation. All denominations will be represented by their foremost men and women. Dr. Sullivan highly appreciates the honor paid him by his church, and will attend. Dr. Blackard is also most appreciative, but owing to the pressure of official duties in the district at that time, thinks he will not be able to go.

Ohio Unanimous For Her Favorite Son—Taft Wins Four to One Every County, Where Contest is Offered.

**Supreme Court Upholds Taft
Committee in Cuyahoga County,
and no Fight is Made in
Cleveland.**

Columbus, O., Feb. 12.—The net result of the Republican primaries in Ohio was for William H. Taft, four delegates at large and twenty-two district delegates to the state convention to be held March 3, which will be unanimously in his favor. Hardin county held no primaries.

No opposition worth mentioning developed during the day. The supreme court destroyed all chances of success by the Foraker element in Cuyahoga county by declaring that the Taft committee was the only valid organization of its kind in that county and the selection of delegates there went by default, no ticket being placed against the Taft candidates.

In Knox county opposition to Taft had brought out the "independent" ticket, the independents, however, being all Foraker men. The vote, however, was about four to one in favor of the Taft candidates.

Actual voting for delegates to the state convention was carried out in but thirty of the eighty-eight counties of the state. Taft delegates in fifty-two counties having no opposition and their names were simply certified as having been elected; and no vote was taken in Hardin county.

It was the general belief that votes would be cast in thirty-six counties, but the failure of Foraker men to bring out an opposition ticket in Cuyahoga county reduced the number by one.

Congressional primaries were also held today.

In all but the Seventh and Nineteenth, wherein voting today was in too limited a territory to be decisive, the Taft people won without opposition.

In the Eighth district congressional primaries were not held in one county—Hardin, but the result there cannot possibly override the vote on the remainder of the district, and the two delegates to the Chicago convention are certain for Taft.

The following statement was issued last night by Arthur L. Vorys, manager of the Taft campaign:

"Ohio is for Taft, and the result at

BURGLARS LIKE BEANS.
Unquestionably the robbers that entered the grocery of H. D. McChesney, Twelfth and Jefferson streets, last night must have been from Boston, as the biggest part of their plunder consisted of baked beans. After cleaning the cash register of some change, the thieves began work on the baked beans and not a can was left. Flour and tomatoes were taken in abundance, also. The thieves gained entrance by breaking a glass out of a side door in the butcher shop, and then entering the grocery. The door to the grocery was found open this morning, where the thieves had walked boldly out of the store. This is the second time Mr. McChesney has been robbed in two weeks.

the primaries today completes the demonstration. Every county (except one with seven delegates) now has selected its delegates to the state convention. Every county has selected Taft delegates. The state convention will be unanimously for Taft, for every one of the 815 delegates is for and is instructed for Taft. This unanimity also demonstrates that every one of the forty-six delegates to the national convention will be for Taft."

ST. ANDREWS CHAPTER

A chapter of the Brotherhood of St. Andrew will be organized among the men of Grace church tonight in the parlors of the parish house at 7:30 o'clock.

REMARKABLE RECORD FOR POSTAL CLERKS

Only eight errors in handling 103,000 pieces of mail during January is the record of efficiency made by the local postoffice. This is one error for every 50,375 pieces. The postoffice averages 13,000 pieces of mail each day, and the rapidity with which mail can be handled, and the careless manner in which patrons prepare and address letters and packages, combine to make errors easy.

THREE CRACKSMEN TAKE \$20,000 FROM VAULT IN RICH HILL, MO., AND ESCAPE

**Second Bold and Successful
Robbery West of the River
Accomplished by Three Men
—Posses Pursuing.**

Rich Hill, Mo., Feb. 12.—Cracksmen blew the Farmers and Manufacturers' bank here at 12:30 o'clock this morning, and secured, according to Cashier J. W. Jamison, between \$20,000 and \$25,000. By two explosions the building was wrecked and the outer vault and interior of the same blown. It is believed three men did the job. Not a person was seen by Night Watchman Mead, who fired shots to awaken residents. Only currency was taken and silver was scattered about the floor. Posses are scattered in all directions about the country. Governor Folk today offered \$400

TRUE SITUATION REVOLVES ROUND COUNTY UNIT LAW

**Senatorial Contest is Complicated
With Temperance
Fight by Beckham.**

**Revolt Against Him More Extensive
Than Appears.**

MC'REARY IS IN THE LEAD

Frankfort, Ky., Feb. 12. (Special.)—Leaders here do not desire the county unit law. That, and not the fight between Beckham and Bradley, is the cause of the present deadlock in the Kentucky legislature. Just as soon as the Beckham men find they can elect their man without passing the county unit law or the anti-Beckham men find they can defeat the former governor, without passing the law, there will be something doing in the senatorial race. Meanwhile, under the placid surface, unruffled by the monotonous vote at noon each day, there are swift currents and dangerous eddies in the stream of politics.

When the Beckham men brought out the county unit law and passed it on one reading and then referred it to the committee on public morals, to "afford further opportunity for argument," they did it to show their strength. It was a threat to the anti-Beckham forces, that if they should elect anyone else United States senator, the county unit law would be forced through.

Those five much praised and much condemned statesmen, who are voting for this one and that one and never for Beckham for United States senator, are not the whole strength of the anti-Beckham revolt in the Democratic party. There are many others ready to leave Beckham, when the signal is given, and unite with the bolters on some other Democrat.

These men will never help elect Beckham, and if at any time, he should show strength enough to win, they would desert him.

On the other hand, Democrats assert that the same condition exists in the Republican ranks, and that neither Beckham nor Bradley can be elected. But that is, more or less, gossip. So far the Republicans have been standing together faithfully.

These anti-Beckham men will never vote for Bradley or any other Republican. If Bradley or any other Republican is to be elected, it will have to be with the votes of Beckham supporters, who may refuse to bolt the primary nominee, when the break comes, and go over to the Republican side to prevent the triumph of the bolters.

No less regular organs than the Kentucky State Journal and the Owensboro Inquirer have advised this very thing. Of course, that is accepted as a part of the same tactics with the parading of the local option measure—a threat—but it shows the feeling, and it is possible, that, in the event of a successful bolt from Beckham, Bradley might win and the local option bill be passed.

It's a mighty ticklish situation in Frankfort just now, and a mistake on one side or the other may precipitate a crisis.

Senator McCreary stands the best chance of winning, if the bolt succeeds; but it seems to be anybody to beat Beckham, and once the conspirators leave him, they will not party long over a candidate. The whole thing will be done at once, when it is done, and the state will be startled some day to read in the papers that such an one has been elected United States senator.

CASH PREMIUMS FOR INSURANCE AFTER MARCH 1

After March 1 the local insurance agents will place their business on a cash basis, and all premiums must be planked down in the cold cash before the policy is issued. This resolution was adopted unanimously at the meeting of the board of underwriters yesterday afternoon, and the agents contend that it was necessary to do this. They say many people would order a policy and then in a few months cancel it, and leave the agent a bundle of trouble. This resolution was the bulk of the business before the board, and the removing of the old telephones from the fire stations was not brought up for discussion. Mr. L. L. Rebut is the new president of the board and Mr. Frank Boone secretary.

FIRE AT WICKLIFFE

Wickliffe, Ky., Feb. 12.—(Special.)—Fire last midnight destroyed two cottages belonging to W. D. Burnett, in the lower end of town, entailing a loss of about \$1,000. A defective flue is supposed to have been the cause. The families of Mr. Burnett and his son, who occupy the houses, were asleep when neighbors saw the glare and awakened them. Had they been in two-story houses they would have been burned up. As it was, they escaped through windows and doors in their night clothing, and none of them was injured. Volunteers succeeded in saving surrounding property.

ALDRICH BILL IS MADE TARGET OF IN UPPER HOUSE

**Republicans and Democrats
Assail it and it Will Be
Delayed.**

**Plan to Impede Progress Un-
til Country Aroused.**

APPOINTMENT BY PRESIDENT

Washington, Feb. 12.—The bitter attack in the senate on the Aldrich currency bill by both Republicans and Democrats eliminates all prospects that Senator Aldrich will be able to get the measure through in record time. It is doubtful now whether it will be passed in the senate before April 1. The plan formulated by the Democratic leaders is to prolong the opposition to the bill in the senate until various sections of the country become aroused against it.

Wants Lincoln's Birth Holiday.
Mr. Sulzer, of New York, introduced a bill to make Lincoln's birthday a public holiday. If this bill, or a similar one, introduced by Mr. Bartholdt, of Missouri, is passed, it will be the second instance of the creation of a legal holiday by congress, the other being that of Labor Day.

DEPUTY MARSHAL NEEL BRINGS IN ANOTHER ONE.

Elwood Neel, deputy United States marshal, arrested George Gardner, colored, at Murray yesterday on a charge of bootlegging and brought him to this city. Gardner was indicted by the federal grand jury and gave a cash bond of \$100 for his appearance before the court. Marshal Neel probably will leave this evening for Trigg county to serve a number of summons in civil cases.

CITY ASSESSMENT CHANGED LITTLE BY SUPERVISORS

Little change will be made in the city assessment by the work of the board of supervisors. There will be a slight increase in real estate by reason of improvements, which is the only item that can be taken into account until the regular quadrennial assessment. The personally will show a falling off.

The decrease is accounted for the concerns that have gone out of business during the year, the division of estates and the withdrawal of the Ayer & Lord The company property from assessment in this state.

An effort probably will be made to get some tobacco companies on the list for taxation that have made no returns. Some tobacco buyers for outside companies, who have asked the city to pay for extra police protection afforded them during the night rider scare, are not making any returns, and city officials intend to inquire what they have for policemen to watch, if they haven't anything to pay taxes on.

The supervisors have adjourned until Tuesday.

**House Passes Senate Bill to
Free Citizens From Double
Taxation—Blue Grass Seed
Bill.**

Frankfort, Ky., Feb. 12. (Special.)—In the house this morning a scrap came up over an effort of Representative Dixon to force the contest committee to report on the Burford-Mahin contest from Jessamine county. The speaker ruled him out of order. He appealed from the chair and was sustained by a vote of 44 to 44. Blair and McKnight voting with the Republicans. The contest was a Republican against a Democrat.

The house passed the senate bill to prevent taxation of property held by citizens of this state, which is subject to taxation in other states.

The senate passed a bill to prevent the sale of adulterated grass and other seeds.

On joint ballot, Beckham received 59, Bradley 58 and scattering 7. Necessary to choice, 63.

MAYFIELD BUYER WARNED BY NIGHT RIDERS TO LEAVE

Mayfield, Ky., Feb. 12.—Robert Bennett, a prominent tobacco buyer of this city, has received a notice to cease buying tobacco. The notice was found at his door, and accompanying it were a bunch of switches and a .44-caliber cartridge. The note did not have a signature. It is written with a lead pencil and bears the phrasing commonly used by night riders at other places.

Bennett has been buying Graves county tobacco for Gardner & Walker local representatives of the Regie people. This is the first warning received by a Mayfield buyer, so far as is known.

Mr. Bennett has resigned and will heed the warning.

DOUGLAS REPLIES TO SEN. FORAKER

Reads Another Letter in Bryson Controversy.

Shows That Roosevelt Appointed Man, Who Is Opposed to Secretary Taft.

REFLECTS HIS CHARACTER.

Washington, Feb. 12.—In the house Representative Douglas replied to the statements by Senator J. B. Foraker, regarding the president's action in the Athens postoffice matter.

"How the distinguished gentleman (Mr. Foraker) came by those letters I do not know, and, therefore, I do not characterize it," said the speaker. "How he happened to read this correspondence, which was private so far as I am concerned, I do not know, and so I will not characterize that. But perhaps, because he did not have all the letters, and I trust and believe that this was so, he failed to read one, which I ask to be read at the clerk's desk."

Mr. Douglas then sent up the letter he had written to Postmaster Bryson on December 10 in reply to the long and forcible communication which the postmaster had sent him on December 7, and which Mr. Foraker had read in the senate. The Douglas letter is as follows:

His Letter.

"My Dear Bryson—Your letter dated December 7 came to hand yesterday and I confess that I am a little embarrassed about answering it, for, although it is addressed to me, it seems something like an inspired attack upon the president and designed for publication. Really, my dear Bryson, you hardly treated my letter of December 5 fairly, and do you not make a mountain of a mole hill? In other words, I feel sure, knowing the facts, that you were not out of sympathy with the president's policies, and I asked you to come here in order that we might disabuse the president's mind of such an impression."

"As I said to you in a subsequent letter I have not seen the newspaper interview, which I understand had been called to the notice of the president. At the same time I feel very sure that, from what I know of the manliness and fairness of the president, and what I have seen of his generosity in regard to the opinions of others as to men and measures, it could not have been simply your quoted opinion in regard to Taft or Foraker, or that Taft could not carry Ohio under 'Present complications,' or that you favored Senator Foraker's return to the senate, that alone occasioned the president's action. . . ."

"At the same time I do not agree with you either that Taft could not carry Ohio, or that he could not, if nominated, be elected by an overwhelming majority in the electoral college. However, I am not called upon in this connection to defend the president generally or his policies or to demonstrate the strength of Judge Taft before the people of the country. At the same time there is a re-

THE EVOLUTION

Of Cod Liver Oil—The Latest and Most Valuable Form.

Early in the 17th century physicians became aware of the fact that the cods' livers and their oil contained medicinal elements of great value in the treatment of pulmonary, scrofulous, wasting diseases and chronic rheumatism.

In using Cod Liver Oil in its original form they discovered that the oil, in which the valuable curative elements were embodied, was very objectionable, and of no medicinal value. How to separate or extract these medicinal properties of the cods' livers from the objectionable oil was the question.

After years of experimenting they produced three different and distinct kinds of cod liver oil, namely,—the clear pale, the light brown and the brown. The clear pale was that which was first extracted from the cods' livers. The light brown was obtained by boiling the livers after the clear or pale oil had been extracted, and the brown oil was the result of pressing the residue.

None of these products, however, were free from the nauseating oil, and no one of them contained all of the medicinal elements known to exist in the cod's liver. It remained for two eminent French chemists, **Morgues and Gautier**, to produce the perfect cod liver preparation. After twenty years of study and labor they discovered an extractive and concentrating process which enabled them to separate from the fresh cods' livers and their oil, all of the medicinal, healing and body-building elements, and discard the oil entirely, and it is by this process that Vinol is made.

To these valuable Cod Liver extracts is added Peptonate of Iron, which produces Vinol, a remedy unexcelled in the treatment of all pulmonary and wasting diseases, and to restore health and strength to feeble old people, delicate children and after sickness. We ask any such person in Paducah to try Vinol on our guarantee to return the money if it fails to give satisfaction. W. B. McPherson, Druggist, Paducah, Ky.

mark in your letter which seems to me so patently and notoriously incorrect that I cannot refrain from simply referring to it. You say the president wants no strong men and there is no place in his code for them. With such men about him as Root, Taft, Cortelyou, Garfield and a host of others, devoted to him personally, holding up his hands in maintaining the interests of the people in every way and in every quarter, it is idle, if not preposterous, to say that he does not want strong men about him.

"In conclusion let me say that while I thank you for your very kind and truthful way of treating any differences between ourselves, present and past, in regard to our choice for the presidency, I think the more kindly and simple way for you to treat my letter of December was just as it was meant, and that was to give you a friendly opportunity to do what we were both interested in doing, since I had sent your name unsolicited by you to the president to come here and correct what seemed to be a mistaken impression concerning you at the executive offices. Very sincerely yours, "ALBERT DOUGLAS."

When the clerk concluded the letter the Ohio representative said:

"This correspondence was read in connection with certain criticisms of the president and his alleged disposition not to appoint men to office unless they favored a certain man for the Republican nomination for president. Upon receipt of that letter I went to see the secretary of the president and frankly communicated to him the substance, and in spite of that, and with a knowledge of that, the president sent Bryson's name to the senate and he was confirmed and is now postmaster at Athens, Ohio. I may say I think it was due to more than myself to make the explanation, because, in my judgment, the whole incident from beginning to end, illustrates, not the disposition of the president to wage war upon any men who are not of his way of thinking, but rather with the same generosity and broad-mindedness which I spoke of in the letter, to appoint men who are as I then thought this man to be, and still trust it is so, a man in every way fit to have the business as postmaster at Athens."

THEATRICAL NOTES

"Sweetest Girl in Dixie."

An appreciative audience greeted the "Sweetest Girl in Dixie" company last evening at the Grand opera house. The play is full of southern atmosphere. It deals with the folly of a father who mortgages his home and places himself and daughter in danger of being turned out into the world, alone and without money. As a whole, the play is pleasing and well received by the audience. At times the gallery indeed grew wildly enthusiastic.—San Antonio Daily Express.

"The Land of Nod."

Knox, Wilson, the well known comedian, who will appear at The Kentucky on Tuesday, February 18, as "April Fool," in "The Land of Nod," is one of the funniest, grotesque comedians on the American stage, and has a number of successes to his credit. For several years he was a well known vaudeville headliner, and during the action of the play introduces a saxophone fantasy that is greeted with tremendous applause. Mr. Wilson is well remembered for his masterly portrayal of "Doodle Von Kell," the secretary, in the original production of "The Burgomaster," and also as the insane Russian in Anna Held's production of "The Little Duchess."

"The Royal Chef."

One of the musical novelties which will be seen in "The Royal Chef" at The Kentucky theater for one performance on Saturday, February 15, will be the electric lighted feather box. This is the invention of Mr. Gus Sohke, who arranged "The Royal Chef" fancy dances and tableaux. The box is used in the opening number of the second act and on a darkened stage; the boxes, which are worn by the girls, light up in varied colors, giving a kaleidoscope effect to the setting. Another electric novelty is the umbrella, which is used in the last act. This umbrella is one of the trick mechanisms of the stage. It is 16 feet in diameter and descends from the flies opening out as it comes down. The audience can see nothing upon which the umbrella is supported, and it falls down like a bird in its flight, the girls holding ribbons which hang from the spokes of the umbrella, dancing around in maypole fashion. At a signal, the umbrella lights up with 262 tiny incandescent lights of varied colors. It is one of the prettiest electrical effects ever seen on the stage and is one of the many bright features of this entertaining musical comedy.

There is no denying the fact that the musician's life is an easy one, and it is getting more so every day. They are well paid and well treated, which is justly due them. There is no other trade which compels you to pay for your experience. When you start to learn any other profession you receive a salary right from the start. Not so with the musician. He must pay for his knowledge, and it is only right that he should receive good pay for his services afterward. Would you like to be a musician? You can. All you have to do is give a few moments of your spare time each day to practice.

There is no one who has not some talent for music. Some have more than others. They make artists. You may make an artist.

WHAT THE KIDNEYS DO.

Their Uncensing Work Keeps Us Strong and Healthy.

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—pain in the back, headache, nervousness, hot, dry skin, rheumatism, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. But if you keep the filters right you will have no trouble with your kidneys.

J. R. Womble, of 1162 Broadway, Paducah, Ky., says: "When I gave the statement for publication in 1900 telling of the great benefit I had received from the use of Doan's Kidney Pills which I procured at DuBois & Co.'s drug store, I had no idea it was to be a lasting benefit for I had been a severe sufferer from a general kidney and bladder trouble and weak back. I had some pretty severe attacks of kidney trouble and sometimes I could hardly get up if I knelt or stooped. Yes I have been so bad that I have almost had to crawl on my hands and knees. There was no rest for me at night and I felt very much discouraged. The secretions were highly colored, scalding and burning, but not until I began using Doan's Kidney Pills which I procured at DuBois & Co.'s drug store did I get relief. I noticed their good effect in one day, and in a short time the kidney difficulties were corrected and the terrible pains across my back had passed away. Although I had suffered in this way for many years, Doan's Kidney Pills gave me this quick and permanent relief. I can say at this time, Feb. 18, 1907, that I am better than at any time in twenty years. This remedy is one of the few that do all that is claimed for them."

MANAGERS OF PONTIAC REFORMATORY REPORT FINDING

Illinois Will Instruct for "Uncle Joe" Cannon—Farmers in State Meet.

Chicago, Feb. 12.—The board of managers of the Illinois State Reformatory at Pontiac, Ill., announced its finding in the case of William Hamlin, an inmate of the institution who died January 18, following alleged brutal treatment at the hands of the guards of the prison.

The board found Hamlin's death was due to the effect of a surgical operation at the reformatory hospital following an attempt by him to commit suicide. At the same time the managers decided that A. J. Renc, disciplinarian of the institution, and Night Lieutenant Rogers had exhibited such poor judgment in the treatment of the youth that their services should be terminated, and their dismissal is recommended.

All for Cannon.

Springfield, Ill., Feb. 12.—The Republican state convention to be held in the spring will be simply a "Joe Cannon convention." That is to say, it will have nothing to do beyond the selection of delegates at large to the national convention, the nomination of presidential electors and the adoption of a party platform. It is a foregone conclusion that the national delegates will be instructed for Mr. Cannon for president.

Illinois Farmers.

Peoria, Feb. 12.—The thirteenth annual state meeting of the Illinois Farmers' Institute and Affiliated Association of Domestic Science, opened today. An address of welcome was delivered by Mayor O'Connor and responded to by President Charles W. Farr, of the Farmers' Institute and United States Judge Humphrey, of Springfield. Addresses were delivered during the day and night sessions of both organizations.

How is Your Digestion?

Mrs. Mary Dowling, of No. 228 8th Ave., San Francisco, recommends a remedy for stomach trouble. She says: "Gratitude for the wonderful effect of Electric Bitters in a case of acute indigestion, prompts this testimonial. I am fully convinced that for stomach and liver troubles Electric Bitters is the best remedy on the market today." This great tonic and alterative medicine invigorates the system, purifies the blood and is especially helpful in all forms of female weakness. 50c at all druggists.

TOBACCO SALES AT OTHER POINTS

Trust Sales of Weed at Mayfield to Snuff Company.

Hopkinsville Deliveries Delayed By Bad Roads and Few Hogheads Disposed Of.

INVESTIGATING THE CHARGES

Hopkinsville, Ky., Feb. 12.—The first of the weekly meetings of the Christian county executive committee of the Planters' Protective association was held in the circuit court room.

Each committeeman made a report as to the conditions in his precinct, these showing that from 25 to 30 per cent of the crop had been delivered to the prize houses. Affairs were reported to be in a generally satisfactory shape all over the county. The tobacco acreage question was not discussed at length but reports from the northern portion indicated that already the scarcity of labor was being felt and would probably tend to cause a reduction of the acreage in itself. Salesman S. G. Buckner reported the sale of 17 hogheads of low lugs at \$7 and that he had another lot now ready for the buyers and thought the deal would be closed. He stated that he did not expect any heavy buying for some time and that the sales now being made were only sample deals.

Committeeman Stegar stated that it had been told to him that Prizer John W. Adams had been buying tobacco, T. H. Major being his agent, and he called upon Mr. Adams, who was present, for a statement regarding the report. Mr. Adams denied emphatically that such a report was true, saying that Mr. Major had been working for him soliciting tobacco for his prize house in Christian and Trigg counties, Kentucky, and Stewart county, Tennessee, but that he had never given him, or any other man, orders or authority to purchase tobacco in any manner. He presented

ed a signed statement from Mr. Major.

Some one in the audience asked the question when the membership books of the association would be opened again and Chairman Radford stated that the date would be May 1. It was reported that a large number of farmers were anxious to join but the chairman said that they would have to wait until May 1.

Equity Sales.

H. H. Abernathy, warehouseman and salesman for the Society of Equity, reports the sale of 25 hogheads of tobacco as follows: Eight hogheads leaf at prices ranging from \$8.50 to \$11; six hogheads lugs, \$7.50 to \$8.25; eleven hogheads trash, \$6 to \$6.75. Receipts at this house have been curtailed somewhat during the past week on account of the weather conditions and the bad roads.

Crittenden County.

An effort is to be made to establish the Planters' Protective association in Crittenden county. Up to this time the only organization in that county was that of the Society of Equity, the holdings of that organization in Crittenden figuring in the sale of 16,000,000 pounds, which was made to the Imperial Tobacco company. A meeting was held Saturday at Marion and speeches were made by Hon. Ward Heady, of Princeton, and Hon. Bradley Wilson, chairman of the Hopkins county association.

First Sales at Mayfield.

Mayfield, Ky., Feb. 12.—Salesman Wes Humphreys of the Tobacco association, sold 17 hogheads of tobacco Monday to Oscar Hank, representing the American Snuff company. The prices received were as follows: Fifteen hogheads low lugs, \$7; one hoghead common lugs, \$8; one hoghead common low leaf, \$10. This is the first sale that has been made for the 1907 crop of tobacco in Graves county.

The Local Market.

No sales of any consequence have been made at the salesroom of the Tobacco Growers' association during the last few days. No special effort has been made to make sales on account of the fact that the salesroom has been all torn up by carpenters building large air tight bins in which the samples of the types of tobacco for sale are kept, the bins being arranged so that the tobacco will be kept "in order" all the time.

To date about 97 hogheads of tobacco have been sold, at prices ranging from 7 to 9 cents a pound for lugs and 10 to 15 cents for leaf. The sales started about two months earlier this year than last, and prices average about two cents higher on the pound.

After indorsing the action of the city administration in ordering all East Tennessee telephones from the public offices, the McCracken County Medical society decided at a meeting held at Dr. Brothers' office last night, that they would act with any other business organization in the city in ordering old 'phones out of their offices and residences. The society agreed to wait 90 days to give the other business organizations time to act. Sixteen physicians were present at the meeting. Several interesting papers were read, Dr. Brothers leading the meeting with a paper on "Anatomy and Histology of Bones and Perforations." Dr. Henry Daley read a paper on "Osteomyelitis."

Midnight came and still the bore remained. "Do you like music?" asked the beautiful girl just to break the monotony.

"Passionately fond of it," replied the bore. "In fact, music will always carry me away."

"You are still here," she said, turning on the stool.

"Yes," yawned the bore.

"But I thought you said music always carried you away?"

FIGHT OVER CHICKEN COOP; GET INTO COURT.

Over the building of a chicken house, Harry Allen and Clyde Cooper had a little scrap yesterday afternoon at Fourth street and Broadway. It is said that Allen engaged Cooper to build a chicken coop at Allen's farm near Wallace park and Allen asserts that Cooper did not finish the work. Cooper's side is that he completed the job and Allen refused to pay him. Mr. Allen had a leg broken several weeks ago and was out on the street with his crutches, when he met Cooper and it is said he gave Cooper a sound whack over the head. The men mixed it up until friends separated them. The case was continued in police court this morning until Monday morning.

tion, best represents the qualities that are necessary to carry out this administration's plans. Of the other candidates for the Republican nomination, all in some way or other come just a little short of a complete embodiment of the president's ideas, while Bryan overshoots Roosevelt to a degree that equally disqualifies him. So that in Taft only is found the closest expression and personification of President Roosevelt's policies. Not that the other Republicans are not admirable men, well qualified to give the country a splendid administration. But the singleness of issues in the next election has become so apparent since the president's last message, that the qualification for a successful candidacy before the people consists solely in being the best representation of Roosevelt.

Opposition Ceases.

As Republicans throughout the country come to realize this fact, the moribund opposition to Taft in states without favorite sons will cease to exist. The party in convention assembled will see how easy it will be to nominate a candidate, who stands for reactionary ideas in the estimation of the people, and they will also see in the event such an impression gets out about the Republican candidate that Bryan better represents Roosevelt than their own nominee. The situation in a nut shell is, that the people have approved the present administration and they will continue its policies if they have to take Bryan to do so. But they will much rather take some man who has the president's endorsement as being capable of carrying the nation forward along the lines now being followed.

President Roosevelt has not entered the fight to see his policies con-

tinued by his successor, to lose; he will remain in it until the man who best personifies those principles is nominated. It may not be on the first ballot. With so many states having favorite sons, it would be remarkable if Taft was nominated on first ballot. But complimentary votes to favorite sons will not cloud the real situation. Besides, of the other candidates, only Cannon, Fairbanks and Hughes have real booms. LaFollett and Knox are known to be enthusiastic for the president and their delegations are as securely for Taft in the end, as those states which have avowedly spoken for the war secretary. Since the president's message the situation has been clarifying for Taft in a rapid way and before the convention in June dominance of the convention will be complete.

The Taft Boom.

Charges that the president is using unfair means to advance Taft's chances cannot be substantiated, and in the minds of the people generally have no credence. Taft's increase in strength is due to the realists popularity of the president and belief in his good judgment as to an available successor. This popularity is confidently expected to take a violent expression in the convention, and some feeble admirers of the president profess fears as to whether he will, like Caesar, refuse the crown of a third term. The convention will be the time and place for this enthusiasm to find expression, but Roosevelt has full warning of his popularity, has decided on his course through it all, and however vehement his admirers may become, when the calm follows, he will be found unmoved and with his

hand still steady on the rudder of the convention shaping its course toward the nomination of Taft.

If the Democratic convention had been held before the Republican convention, and had Bryan been nominated, there would not be the slightest doubt about who the Republicans would put against him. In such a contingency nobody would deny that the Republican candidate should be a close representative of Roosevelt's ideas. The Republican convention would wholeheartedly seek for a candidate whom the people would believe is qualified for the task of completing the administration's policies, and Taft would be the nominee. The necessity of doing this before the Democrats nominate, is as real as it would be apparent after they nominate. Eight years of Taft is now assured. WILLIAM R. SCOTT.

Daily Thought.

God denies us nothing, but with a design to give us something better.—Adams.

The village of Cohokia, Ill., which is still existing under a charter granted by Louis XIV. of France, has gone into the hands of a receiver. Anyone could anticipate nothing less than bankruptcy for a town, whose local politicians never considered it worth their while to have its charter tinkered.

It is unfortunate that just at this time, when Senator Knox is writing employers' liability bills and Taft is talking on the beauties of unionism, labor troubles should break out at Fairbanks, Alaska.

Not only is the Taft triumph in Ohio, the native state of the secretary of war, a triumph of the people over politicians; but it is a vindication of principles, and a victory for the one man, who has been conspicuously marked for slaughter by dire influences in the republic for more than a year.

Observe how Taft has been treated, as compared with the way he has treated other candidates for the presidency. In New York, Roosevelt and Cortelyou's home, Secretary Taft himself warned his friends not to interfere with the endorsement of Governor Hughes. In Indiana, an adjoining state, Secretary Taft's friends have scrupulously avoided interference with Vice-President Fairbanks' home delegation, although the strength of Taft and of Senator Beveridge in Indiana might have split the delegation. Illinois is left to Joe Cannon and Pennsylvania to Senator Knox; and, significantly, all these other candidates refrain from interfering with one another.

Yet, in Ohio, we find Senator Foraker, the most out and out reactionary of all, fighting Taft to the end, with no hope other than discrediting the secretary of war by apparent opposition at home, and arraying against him such federal and state officials as owe their positions to senatorial influence.

Observe, too, how the Taft victory was won. First, the senator ruffled his neck feathers and showed defiance to the national administration. He would contest the championship of the Ohio barnyard with the Washington coop. He had employed the same tactics with Mark Hanna, secured unopposed return to the senate and representation in the state organization. But this time he failed. Secretary Taft refused to enter into alliance with the senator. He said he would not oppose Foraker, if the people wanted him; but some of Taft's friends opposed Foraker and Taft would not undertake to trade his friends. They were at liberty to support Taft and Foraker both, or support Taft and fight Foraker, or do whatever they desired.

It looked like suicide, because Taft had gone into Ohio and defeated the Cincinnati Republican machine by denouncing Boss Cox, and everybody knew Cox would knife him. Then a strange thing happened; Cox announced for Taft, and frankly stated that there wasn't any use in trying to down him with the people. About

that time, too, Foraker's henchmen were carrying reports to him, that they couldn't stem the tide of popular sentiment. Foraker was candidate for both the presidency and the senate, and some of his friends conceived the idea that they could support Taft for president and Foraker for senator, which was logical. That situation compelled Foraker to make a desperate stand. He threw senatorial prospects to the winds and declared he was a candidate for president, and he dared Taft to meet him in a popular primary for delegates.

His offer was met so quickly he had no time to hedge. The state committee called a primary and Foraker fought it through the courts, being beaten at every step, until yesterday, at a primary that the supreme court of his state declared legal in every feature, he was beaten four to one in what few counties he received any vote at all.

Clean, courteous, magnificent in his courage, risking the highest prize in American politics time and again for the sake of principle, William H. Taft comes through the ordeal of opposition in his own state, stronger than when he entered; just as in every task—the Friar land dispute, the Cuban trouble, the Panama canal complications, the Japanese embargo—he has exhibited versatility, judgment, gentleness and firmness in proportions, with which few human beings are endowed.

Taft won his point in Ohio without fighting. He has a winsome smile and behind that smile he has a mind, broad and deep and elastic.

Taft has shown that he is great enough not to be president if a principle is involved. In not one instance can it be said that he has played politics in his official acts. In his speeches and in his conduct he has been ever the patriot. He is a man marked by destiny.

THE CZARINA'S NERVES.

Those ladies, who consider the presence of children and mice sufficient cause for nervous disorders, will appreciate the unhappy mental state of the czarina, living under conditions described in the following dispatch:

"Word has reached the French capital of the discovery by the empress of Russia of a terrorist warning in the czar's bed, stating the czar and czarvitch have been sentenced to death. Secret police agents found a network of electric wires, ingeniously concealed and connected with 17 powerful bombs, placed at distant points in the palace. A single operator would have been able to blow up the entire palace. The discovery of the plot it is said, has greatly frightened the czar. He is again in an exceedingly nervous state. It is now generally credited that there are several revolutionists among the servants in the palace."

Mrs. Hagar is survived by her husband, Mr. Lemuel Hagar, electrician for Foreman Bros., and two daughters. She was a member of the Broadway Methodist church and had been a resident of Paducah for 15 years. The funeral will be held tomorrow afternoon at 2 o'clock. The burial will be in Oak Grove cemetery.

INSURANCE ADJUSTORS

SETTLING CANNING CASE.

Adjustors from insurance companies, having insurance on the Paducah Canning factory, that was destroyed by fire several weeks ago, settled the losses with the owners this afternoon. The adjustors were: Messrs. David Caldwell, J. King and John Young. Insurance amounting to about \$12,000 was carried on the building and machinery which was valued at about \$16,000. Mr. Jesse Well, general manager of the company, this morning said it was uncertain what would be done. Nothing definite has been decided about rebuilding, and a decision may not be reached for some time.

Blackmailer Punished.

London, Feb. 12.—Carl Ludwig von Veltheim was sentenced to 20 years imprisonment for attempting to blackmail Sol Joel. The charge grew out of an alleged attempt of Joel and others to kidnap Oom Paul Kruger, president of the Boer republic.

Deserted but still showing evidence of many years' usefulness and efficient service, a tattered form was discovered on the river bank this morning with all ribs broken and with wet and bedraggled covering of black silk. The shattered form was permitted to stay in the position into which it had fallen for hours, although rivermen and steamboat passengers climbed the levee against the wind. Nobody telephoned for the ambulance or patrol wagon or for a physician. No cry came from the shattered form as it lay huddled in the gutter, for it was only an umbrella that had been torn from the hands of its possessor as he hurried down the bank to catch a boat.

The picture pained him like a knife thrust. This girl was his bitterest enemy—no hope of her was for him. He forgot for a moment that she was false and plotting, then, recalling it, spoke as roughly as he might and stated his errand. Then the old man had appeared on the stairs above, speechless with fright at what he overheard. It was evident that his nerves, so sorely strained by the events of the past week, were now snapped utterly. A human soul naked and panic-stricken is no pleasant sight, so Glenister dropped his eyes and addressed the girl again:

"Don't take anything with you. Just dress and come with me."

The creature on the stairs above stammered and stuttered inquiringly: "What outrage is this, Mr. Glenister?"

"The people of Nome are up in arms, and I've come to save you. Don't stop to argue." He spoke impatiently. "Is this some ruse to get me into your power?"

"Uncle Arthur!" exclaimed the girl sharply. Her eyes met Glenister's and begged him to take no offense.

"I don't understand this atrocity. They must be mad!" wailed the judge.

"You run over to the jail, Mr. Glenister, and tell Voorhees to hurry guards here to protect me. Helen, phone to the military post and give the alarm. Tell them the soldiers must come at once."

"Hold on!" said Glenister. "There's no use of doing that—the wires are cut; and I won't notify Voorhees—he can take care of himself. I came to help you, and if you want to escape you'll stop talking and hurry up."

"I don't know what to do," said Stillman, torn by terror and indecision. "You wouldn't hurt an old man, would you? Wait! I'll be down in a minute."

He scrambled up the stairs, tripping on his robe, seemingly forgetting his niece till she called up to him sharply: "Stop, Uncle Arthur! You mustn't run away." She stood erect and determined. "You wouldn't do that, would you? This is our house. You represent the law and the dignity of the government. You mustn't fear a mob of ruffians. We will stay here and meet them, of course."

"Good Lord!" said Glenister. "That's madness! These men aren't ruffians. They are the best citizens of Nome. You don't realize that this is Alaska and that they have sworn to wipe out McNamara's gang. Come along."

A Lazy Liver

May be only a tired liver, or a starved liver. It would be a stupid as well as a savage thing to beat a weary or starved man because he lagged in his work. So in treating the lagging, torpid liver it is a great mistake to lash it with strong drastic drugs. A torpid liver is but an indication of an ill-nourished, enfeebled body whose organs are weary with overwork. Start with the stomach and allied organs of digestion and nutrition. Put them in working order and see how quickly your liver will become active. Dr. Pierce's Golden Medical Discovery has made many marvelous cures of "liver trouble" by its wonderful control of the organs of digestion and nutrition. It restores the normal activity of the stomach, increases the secretions of the blood-making glands, cleanses the system from poisonous accumulations, and so relieves the liver of the burdens imposed upon it by the defection of other organs.

If you have bitter or bad taste in the morning, poor or variable appetite, coated tongue, foul breath, constipated or irregular bowels, feel weak, easily tired, dependent, frequent headaches, pain or distress, "small of back," gnawing or distressed feeling in stomach, perhaps nausea, or "acid" "risings" in throat after eating, and kindred symptoms of weak stomach and torpid liver, no medicine will relieve you more promptly or cure you more permanently than Dr. Pierce's Golden Medical Discovery. Perhaps only a part of the above symptoms will be present at one time and you point to torpid liver or biliousness and weak stomach. Avoid all hot bread and biscuits, griddle cakes and other indigestible food and take the "Golden Medical Discovery" regularly and stick to its use until you are vigorous and strong.

The "Discovery" is non-secret, non-alcoholic, is a glyceric extract of native medicinal roots with a full list of its ingredients printed on each bottle-wrapper and attested under oath. Its ingredients are endorsed and extolled by the most eminent medical writers of the day and are recommended to cure the diseases for which it is advised.

Don't accept a substitute of unknown composition for this non-secret MEDICINE OF KNOWN COMPOSITION.

"Thank you for your good intentions," she said, "but we have done nothing to run away from. We will get ready to meet these cowards. You had better go or they will find you here."

She moved up the stairs and, taking the judge by the arm, led him with her. Of a sudden she had assumed control of the situation unflinchingly, and both men felt the impossibility of thwarting her. Pausing at the top, she turned and looked down.

"We are grateful for your efforts just the same. Good night."

"Oh, I'm not going," said the young man. "If you stick, I'll do the same." He stood the rounds of the first floor rooms, locking doors and windows. As a place of defense it was hopeless, and he saw that he would have to make his stand upstairs. When sufficient time had elapsed, he called up to Helen:

"May I come?"

"Yes," she replied. So he ascended, to find Stillman in the hall, half clothed and cowering, while by the light from the front chamber he saw her flushing her toilet.

"Won't you come with me? It's our last chance." She only shook her head. "Well, then, put out the light. I'll stand at that front window, and when my eyes get used to the darkness I'll be able to see them before they reach the gate."

She did as directed, taking her place beside him at the opening, while the judge crept in and sat upon the bed, his heavy breathing the only sound in the room. The two young people stood so close to each other that the sweet scent of her person awoke in him an almost irresistible longing. He forgot her treachery, forgot that she loved her truly and purely, with a love which was like an agony to him. Her shoulder brushed his arm; he heard the soft rustling of her garment at her breast as she breathed. Some one passed in the street and she laid a hand upon him fearfully. It was very cold, very tiny and very soft, but he made no move to take it. The moments dragged along, still, tense, interminable. Occasionally she leaned toward him, and he stooped to catch her whispered words. At such times his breath beat warm against his cheek, and he closed his teeth stubbornly. Out in the night a wolf dog saddened the air, then came the sound of others wrangling and snarling in a nearby corral. This is a chickenless land and no cock crow breaks the midnight peace. The suspense enhanced the judge's perturbation till his chattering teeth sounded like castanets. Now and then he groined.

An Owensboro dispatch says: "Captain Josh Abshire, a well known steamboat man, is lying at the point of death at his home at Cannelton, Ind., and his death may occur at any time. For thirty years he has been in charge of a passenger and freight boat running between Cannelton and Owensboro. In this way he wore out

three boats, all of which were built at Hawesville for this line. They were in succession the Gertrude, the Judelle and the Gazelle. He was born at Hawesville, August 27, 1833. Until two weeks ago he had been engaged constantly on the river for sixty years. During the war he was in charge of the sale of coal to steamboats at Hawesville, and in that position he had many stirring experiences. Captain Abshire's father, grandfather and only son were river men and lost their lives on the river, the father in a steamboat accident, and the grandfather by being murdered while making a flatboat trip to New Orleans about 1820. The son lost his life at Owensboro on April 14, 1886, in the capsizing of the Mountain Boy in a storm."

Judge Reed announced at the close of the session of circuit court today that he would again call the equity docket Monday morning and notified the attorneys to be present. The cases on the docket will be set down for the different days, and the attorneys were warned that they must be ready for trial or have their affidavits asking continuance ready and file them promptly when the cases are called.

Griffith, asking the court to order the estate into the hands of the master commissioner for settlement. Mr. Gilbert says in his petition that he refuses to recognize Dr. B. B. Griffith, as administrator of the estate of Mrs. Griffith or the guardian of her children, although he was appointed as such by the county court after the will naming Gilbert as administrator and guardian had been rejected. It is said that several creditors have claims against the estate of W. Y. Griffith, and an order is asked requiring all to settle through that suit. A motion will be made Monday by attorneys representing the Griffith heirs to have Gilbert removed as administrator of the estate of W. Y. Griffith.

MCCORD BILL

WILL BE REPORTED BY HOUSE COMMITTEE THIS WEEK.

Planters' Protective Association and Tobaccoists Oppose the Measure for Reasons.

Frankfort, Ky., Feb. 12.—Before

a crowd which packed and jammed into every corner and crevice of the parlors of the Capitol hotel, Representative W. C. McChord declared last night at the hearing of the house committee that the avowed object of his bill putting tobacco companies so as to prevent them from fixing the prices on tobacco and if necessary to drive the American Tobacco company from Kentucky. This was the second hearing on house bill 145 which recommended to the committee on agriculture by request so that the tobacco warehousemen of Louisville might be given a chance to enter their protests and objection before the committee.

President Campbell Cantrell, of the state Society of Equity, who spoke in favor of the measure, which has been endorsed by the tobacco growers' organizations, said that rather than see the people ground down as they had been in the past by the American Tobacco company, it would be better for the trust to be driven from the state and not a single acre of tobacco grown in the state.

The committee was urged unreservedly to kill the bill by the Louisville tobacco warehousemen, who argued that it would injure the small manufacturer who cannot move out of the state and would put him at a disadvantage in his fight with the big companies which have factories outside the state. They contended that the grower himself would be injured and that they would be injured only through the injury inflicted on the grower. The disposition of the committee seemed to be in favor of the bill no action was taken last night.

Another meeting of the committee will be held tonight when the independent tobacco manufacturers will be given a chance to be heard and will present their side of the case. The bill probably will be reported on Thursday or Friday and probably will be reported favorably. "Windy Bill" Thompson, a member of the committee, who is a tobacco grower, wanted the bill reported at once and notified the crowd present that the bill would be passed.

A letter from the assistant manager of the Planters' Protective association, which was shown to have won its fight against the trust without legislation, was read by J. P. Bernhard, of Louisville. The letter said that the association was opposed to the McChord bill.

Dogs or Sheep.

Frankfort, Ky., Feb. 12.—Franklin county farmers and sheep raisers made a showing before the house committee on agriculture yesterday afternoon in the parlors of the Capitol hotel, when they went before the committee in a body and urged that the dog tax law be not repealed. Representative Brooks, of Graves county, and Perryman championed the repealing act, urging that such a privilege tax should not be imposed upon the dog. They argued that the poor man who has a lot of dogs is unable to pay such an assessment on each one and a severe hardship is worked thereby.

Mr. Noel asserted that the sheep growers needed protection and that if they were not given it in such a law they would be driven out of the state.

\$14,000,000

LOSS TO KENTUCKY BY REASON OF TUBERCULOSIS.

Dr. J. N. McCormack Reports a Fund of \$5,000 With Which to Fight Disease.

Frankfort, Ky., Feb. 12. (Special.)

Fourteen million dollars is the annual loss to the state of Kentucky as charged against tuberculosis by the state board of health in a chart shown at the American Tuberculosis exhibition now open in Frankfort.

To offset this loss, Dr. J. N. McCormack reports a \$5,000 fund only a part of which can be spent in fighting tuberculosis.

"A couple thousand dollars to save fourteen million dollars is rather a stiff proposition," says Dr. McCormack. "But it is more striking when compared with the annual investments made by the state in other directions.

For the militia the state spends twelve times as much as it gives for the entire cost of preserving public health. For the care of the idiot thirty-two times as much is spent each year. The penitentiary costs fifty-one times, criminal prosecution fifty-six times and juries sixty-eight times the amount turned over to the state board of health for all of its expenses.

These figures mean that against actual expenditures in fighting tuberculosis, 150 times as much money is furnished by the state in caring for the idiots as well as 250 times as much for the state penitentiary. In view of the fact that so many of the dependent children and adults are brought to this condition by tuberculosis there is additional significance in the fact that for the charitable institutions of the state there is voted each year 900 times the amount the state spends in getting rid of tuberculosis.

Another rather startling fact is that 24 states of the Union spend more, annually, on the public health than Kentucky. Among the states are Utah, North Carolina and Little Vermont, as well as the minute Rhode Island. Including Kentucky 25 states spend two million dollars on an average of eighty thousand for each one.

Should your baby suffer? When he is fretful and restless, don't experiment on him and use any old thing your neighbor recommends. Buy a bottle of White's Cream Vermifuge, greatest known worm medicine and cure for all children's diseases. It is mild in its action, builds up the system, makes thin, puny babies fat. Mrs. J. C. Smith, Tampa, Fla., writes: "My baby was thin and sticky, could not retain its food and cried all night. I used age bottle of White's Cream Vermifuge and in a few days baby was laughing happy and well."

AN IMPORTANT ANNOUNCEMENT

Made by Interstate Commerce

As Requested by Railroads—Goes in
Effect March 4—Commission
Powerless After Then.

DISPATCHERS ARE AFFECTED.

Washington, Feb. 12.—An im-
portant announcement was made by the
interstate commerce commission re-
specting its attitude toward the re-
quest recently made by railroads that
the so-called nine-hour law, a law re-
lating to the employment of train dis-
patchers, telegraph operators and tow-
er men, be suspended by the commis-
sion until such time as the law could
be amended to meet the desires of all
concerned.

The commission holds in brief that
it has no authority to extend the time
or suspend operation of the law ex-
cept in a particular case or cases in
which a hearing has been held and
good cause shown for the extension
asked. The law goes into effect March
4th next.

The commission expresses the opin-

An Excellent Time.

The joint meeting of the Ladies' Auxiliary of the Brotherhoods of Locomotive Firemen and Engineers with the regular members of those orders at Rogers' hall last night was one of the most successful those present ever had the pleasure of attending. The ladies having as their guests about 200 engineers and their friends.

The splendid literary program rendered by the ladies and children was highly appreciated by the large crowd, and those prepared were forced to respond to encores. The program as carried out was as follows:

"The Prayer of Forest Brown"—Clifford Barble.

"Joe, the 'Ostler,' and 'Maggie'"—Mrs. West.

"The New Church Organ"—Ethel Barble.

"Fishy, Fishy in the Brook"—Little Willie Pryer.

"Spelling in the Nursery"—Ruth Stevenson.

"Whistling in Heaven"—Mrs. Barble.

"Two Little Kittens"—Elsie Melus-ter.

"When Papa is Sick"—Finis Thomas.

"The Fireman"—Mrs. T. L. Roeder.

Mr. T. L. Roeder also delighted the audience with a comic recitation and monologue of his own composition.

After the recitations the ladies served refreshments and the remain-der of the evening was spent in social session and dancing, music being furnished by the orchestra.

Master Car Builder M. T. Baughan, of the Illinois Central shops, who is at the hospital with a threatened at-
tack of pneumonia, is resting easy to-
day and the physicians are of the opinion that he will escape pneumonia.

A telegram came to Mr. Baughan yesterday, announcing that his brother was thought to be dying at his home in Maryland of the same disease.

George Gardner, the colored switch man, whose leg was broken while at work in the Illinois Central yards yesterday afternoon, is resting well at the hospital and amputation will not be necessary.

TRY IT ONCE ANYWAY

All medical authorities are agreed that the blood is the great source of disease or of health in the human system. If the blood is pure, the individual is strong and healthy, if the blood is impure or diseased then there is sickness or decay in the whole system.

Rheumatism is strictly a blood disease. It is caused by excessive uric acid. Sores, pimples, etc., mean bad blood. Catarrhal affections must be treated through the blood to get permanent results. To get well, to feel strong, hearty and vigorous one must have good clean blood and lots of it. You can't clean the blood thoroughly unless the kidneys are made active. Bad blood means clogged, inactive kidneys and liver, which causes, too, such symptoms as backache, nervousness, bladder and urinary difficulties and other sympathetic troubles.

Here is a simple home remedy and the recipe for making it is as follows: Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Shake well in a bottle and take in teaspoonful doses after each meal and again at bed time. The ingredients can be obtained at any good prescription pharmacy at small cost.

Here the readers of this paper have a simple yet powerful and effective remedy for all forms of blood, kidney and bladder diseases which should relieve rheumatism and catarrhal affections and replace that weak, worn-out indifferent feeling with strength, vigor and health.

SCHOOL NOTES

Another basketball practice was held in the gymnasium of the Eagles' building, Sixth street and Broadway yesterday afternoon, and some warm halves were played. About 20 girls were at the gym for practice, and many scrub games were played. Miss Margaret Carnegie was captain of one of the teams and Miss Katherine Rock was captain of the second team. Already some star players have been developed, and the girls can throw baskets with much ease. Miss Ann Williamson and Miss Adah Brazleton coached the girls yesterday afternoon, and tomorrow afternoon another game will be held.

The basketball season is near an end, and it is probable that the High school squad will not issue any challenges this year to other High schools, but next year the girls intend to have a champion team. With the practice this year, by next season the team will compete with any team.

Next Friday afternoon the teachers will hold the regular monthly meeting with Superintendent Carnegie. This is the first meeting of the teachers this semester. The pupils of the schools will be dismissed at noon.

The Cadet class held the regular weekly meeting this afternoon with the superintendent. Most of the members are busy teaching in places of regular teachers who have been ill.

Mrs. Ellen Wilcox, of the Lee building, is ill today and unable to teach. Miss Frances Clark, of the Cadet class, is the substitute.

Seats were moved from the Lee building to the Washington building today by Fred Hoyer, superintendent of buildings. The Washington building has so many pupils that all the seats are in use, and to relieve the congestion Mr. Hoyer removed seats from the Lee building.

Washington, Feb. 12.—The president sent to the senate the following Kentucky postoffice appointments: Will P. Scott, Dawson Springs; Charles G. Robinson, Earlinton; John W. Breathitt, Hopkinsville; Lizzie Vanpel, Morganfield; James W. Thomason, Uniontown; William J. Manley, Lagrange.

Kentuckian for Public Printer.
Representatives Langley, Edwards and National Committeeman John W. Yerkes were at the white house today to recommend to the president the appointment of Milo Shanks, of Richmond, Ky., for public printer to succeed the deceased Mr. Stillings. The president was too busy to see them and they will call again. Mr. Shanks, the applicant for public printer, was formerly connected with the government printing office and was removed by Mr. Stillings for insubordination.

Gov. Wilson at the White House.

Governor Wilson, of Kentucky, arrived in Washington this morning, and with Justice Harlan, of the United States supreme court, was a visitor at the white house early in the day and spent some time with the president. The Louisville surveyorship, Governor Wilson says, was not under discussion. The governor and Justice Harlan during the afternoon came to the capitol and were admitted to the floors of the house and senate, where the governor met many of the Republican leaders. Justice Harlan gave a dinner to the judiciary in honor of Governor Wilson, and tomorrow night Governor Wilson will be the guest of honor at a dinner to be given by Justice McKenna, of the supreme court. The governor is en route to New York, where on Wednesday he will be the guest of the New York Republican club at its Lincoln memorial dinner. The governor will be in Kentucky on Sunday.

The following were elected secretaries: Thomas H. Stagg, of Frankfort; A. Babbitt, of Lexington, and Z. O. King, of Central City. The board will be in session for some time and work until June 1, but probably will get through before that time. The secretaries of the board receive \$5 a day.

Bruner Confident.
Dr. Ben L. Bruner, secretary of state, was asked in regard to his being a candidate for chairman of the Republican state central committee and replied: "I am a full-fledged candidate for state central committeeman from the Fourth congressional district and don't believe that when the final showdown comes I will have any opposition for the place."

Second Class City Bill.
Representative Arnett, of Covington, offered a bill which provides that where the city solicitor of a second class city refuses to test the validity of an appropriation ordinance passed by the city council which is made his duty, as the law now stands, any taxpayer shall have the right to bring such suit in his name on behalf of the city corporation.

Tobacco Pool Legal.
Owenton, Ky., Feb. 12.—In the case of the Owen County Burley Tobacco society vs. B. S. Brumback, on a motion to dissolve the injunction granted by the judge of the Owen circuit court restraining Brumback from disposing of his 1907 crop of tobacco, Justice John D. Carroll, of the court of appeals, held that the act of 1906 is within the limits of the constitution and as the society is not seeking to enhance the price of tobacco pledged to it beyond the real value of the product the motion to dissolve the injunction is overruled.

Warned By Night Riders.
Columbia, Ky., Feb. 12.—It is said that the night riders have warned several farmers in Adair county not to raise any tobacco this year.

New Curfew Ordinance.

Mayfield, Ky., Feb. 12.—Another curfew ordinance was passed at the session of the city council in place of the one which was repealed a week or so ago. The new one prohibits persons from walking on the streets or sidewalks between the hours of 11:30 p. m. and 4 o'clock a. m. The former one limited the hours from 10 o'clock.

O. B. Wilson's Home Burns.

The home of O. B. Wilson, living five miles east of Mayfield was totally destroyed by fire while the family was at a neighbor's house. When Mr. Wilson discovered the fire the house was in a mass of flames and the roof falling in. It was too late to check the flames or save any of the furniture. The loss will reach about \$1,200 with \$600 insurance. Mr. Wilson is a prominent young farmer and the son of John Morgan Wilson, of Mayfield.

Former Paducahan Figures in Story.

When the Rev. E. B. Ramsey, of Memphis, formerly pastor of the Broadway Methodist church of Paducah, united in marriage Joseph I. Rolfe to Miss Elizabeth Shipp Saturday night in Memphis, he did not dream of the sensational episode the young couple had experienced before seeking his services. It has since developed that young lady was married a few hours previous to another man and in speaking of the affair the Memphis Appeal in its Sunday's issue in part says:

"Whose wife is Elizabeth Nannie Shipp?"

"She would very much like to find out."

"So would Joseph E. Rolfe and Harris Butler, both of whom claim to have been legally married to Miss Shipp yesterday."

"One ceremony was performed about 5 o'clock at the home of Dan C. Newton, next door to the home of the girl. At this time and place Harris Butler claims that he married Miss Shipp in the presence of Mr. and Mrs. Newton and others."

"At 9 o'clock the second ceremony was performed by Rev. E. B. Ramsey, the groom on this occasion being Joseph E. Rolfe, and the ceremony taking place at the home of Mrs. M. J. Mitchell, his grandmother, with whom he and his sisters live."

"The license authorizing the marriage of J. E. Rolfe and Miss Elizabeth M. Shipp was secured before the office of the county clerk closed at noon and obtained by Mr. Rolfe in person. Miss Shipp accompanied him to get the license. The license authorizing the marriage of Harris Butler and Miss Elizabeth Nannie Shipp was obtained about 4 o'clock in the afternoon, some four hours after the office closed under the rule to close at 12 o'clock Saturdays. This license was secured by Dan C. Newton, at whose home the marriage between Mr. Butler and Miss Shipp was solemnized."

"A story almost stranger than fiction is that told by the young lady herself."

"I was tired and nervous from walking around down town during the morning, and nervous too about my wedding, although I cannot say why. I was lying down in the back sitting room, all alone, about 4 o'clock I suppose, when the door was thrown open and Harris Butler came in. I was surprised, for I had not seen him recently, and more surprised when he came rapidly to where I was and placed his hand over my mouth."

"He said I must marry him or he would kill me. I struggled up and from that time I don't know what happened until I seemed to come to, and saw Mr. and Mrs. Dan Newton in the room, and they and Mr. Butler told me I was married."

"I may have fainted, but I have not the slightest recollection of seeing any other person in the room, and I know that I did not say a word, or consent in any way to the ceremony that they claim was performed and I do not think they did really perform one."

"About an hour or two later I heard Joe talking in the front room. They had kept me in the back room all the time, and when I tried to scream, Mr. Butler kept his hand over my mouth so I couldn't."

"Afterward, when the rest went to supper and were not watching me, I slipped out of the back door."

"After making her escape she joined her real sweetheart in another part of the town and she was married by Rev. Ramsey to Rolfe, whom she says she will not leave as he is her husband."

The matter has not been settled yet and is attracting considerable attention by all who have heard and read of the girl's story. It now seems that her parents were in for their daughter marrying Butler. The matter will probably be settled in court. The girl is 19 years old and is said to be exceedingly beautiful."

LAGERWAHL WINS

MAKES FOUR ROUNDS OF RINK IN ONE MINUTE FLAT.

Large Crowd Witnessed Roller Skating Race Last Night at the Rink.

Maurice Lagerwahl won the race at the rink last night making four laps in one minute flat, from John Brooks and James Shelton. Lagerwahl had the race clinched after the first corner was made. Shelton lost his feet and fell, on the first round, and Brooks fell on the third round. A large crowd witnessed the race and most of those present were satisfied with the result. In last week's race three rounds were made in 56 seconds by "Buddy" Stark; but last night all records were broken, Lagerwahl making four rounds in one minute, the distance is about one-third of a mile. There will be more racing next Saturday night.

DISTANCE IS REDUCED FOR THE TEST OF VISION.

It is one-half as easy to enter Uncle Sam's army now as far as length of vision is concerned. Sergeant C. A. Blake received the order this morning, and for the different departments of service, the distance to read letters on a card is reduced one-half. This change of order came about as

the result of an examination held by the board at the Presidio at Monterey, Cal., of the general officers of the department of the Pacific. A squad of men was taken, half with impaired vision and others with perfect eyes, and a test made with shooting at targets 200 yards and further. The men with impaired vision made much the higher record, and owing to this examination the stringency of the or-

der was reduced. The requirements for admission to the ordnance department and the hospital corps are especially easy and defects in the eyes are allowed to be corrected by glasses. In all of the examinations persons with a diseased eye are rejected.

When the church grafts on this world it is not strange it ceases to bear the fruits of another world."

Mother—Why did you scream when Hans kissed you?
Daughter—He threatened me.
Mother—How?
Daughter—He said he'd never kiss me again.

"He says my eyes are like stars. I wonder what he means by that?"
"I wonder! Stars to me look little and red."—Washington Herald.
